PLAYGROUND INSTALLATIONS
& TARMAC CONTRACTORS

**BUILDING BETTER
BMX TRACKS**

WHY US?

DAVE TURNER, MANAGING DIRECTOR EXPLAINS...

DT Leisure was established in 1989 having identified the need for an independent playground installation company within the market.

Over the ensuing years, the design and build of play facilities has seen many changes – DT Leisure as an innovative forward thinking business, has embraced these changes, adapting its services to suit the market.

My personal experience in the field of extreme cycling, from BMX riding to Downhill Mountain biking at venues throughout the world, has enabled DT Leisure to create and build BMX tracks of the highest standard across the country.

**BMX TRACKS FOR ALL AGES AND ABILITY.
FROM SMALL VILLAGE TRACKS TO WORLD
CLASS NATIONAL TRACKS.**

WHY BMX?

“THERE’S NOTHING TO DO AROUND HERE, WE’RE BORED”

How many times have you heard these words from young people, whether they live in villages or towns? Do you dismiss them as generic adolescent angst, or have you stopped to think if there is any justification to them? And what can be done to address these issues?

BMX (Bicycle Moto Cross) is exciting, but more importantly, it is a sport that is open to riders of all ages and abilities. BMX biking can be just as beneficial as more traditional sports, providing healthy exercise, skills development and a competitive spirit.

BMX racing is now an Olympic Sport as its excitement and growing popularity caught the attention of the International Olympic Committee in 2003.

WHY USE

OUR TRACKS?

Properly planned and executed, BMX tracks provide a safe and exciting facility for young people to learn key skills.

DT Leisure designs and builds BMX tracks to customer's individual requirements. We also help our customers to consult and liaise with local user groups, from the initial design concept through to the final build.

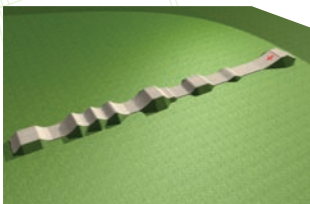

This ensures that the BMX track is in tune with the rider's expectations and that it is used to its maximum potential by the community.

DT Leisure BMX tracks comprise of a start hill and series of jumps, such as tabletops, doubles, triples, berms, speed jumps, step-ups and six packs.

These are sculpted from compacted sub-soil and the riding surface is dressed with a stone dust.

Illustrated below are a series of drawings showing the diversity that is possible with BMX track design. We can design tracks to any budget or specification, individually tailored to suit your requirements and location.

TAKE THE WORD

OF A PROFESSIONAL...

“As a professional BMX rider, I know what I am looking for in a good track. I have been working closely with DT Leisure for the past 10 years - riding the tracks and the layouts they produce. In my opinion, both their product and the standard of workmanship is outstanding.”

“Getting the shape and layout of a track correct is crucial in delivering an exciting fluid ride. DT Leisure delivers on all fronts.”

TESTIMONIALS

A WORD FROM OUR CLIENTS....

“ I am writing to say how pleased we are with the BMX track you installed in the summer. The children have had great fun, the bigger children showing the small children what to do. All the feedback we have had has been positive from all ages. It's good to see the children outdoors enjoying themselves in a safe area and off the roads. Thank you from Project Hailey and the children of the village.”
Maureen Gillies - Chair of Project Hailey

“ I'd like to take this opportunity to thank you on behalf of Corby Borough Council for all your sterling work undertaken on the above projects. The diligent manner, in which you undertook the tasks, together with your enthusiasm and expertise in helping all concerned design these unique facilities, ensured everyone's expectations were met and indeed exceeded. Your flexible approach during consultation and construction with local user groups, helped produce a specialised much needed facility in these particular areas. I would like to thank you again for your invaluable input and wish you every success on future projects.”
Lloyd Baines Davies - Play and Recreation Officer
